

Jane Doe

Senior Backend Engineer

jane.doe.dev@email.com | +34 600 123 456 | Barcelona, Spain

SUMMARY

Highly motivated Senior Backend Engineer with 8+ years of experience in designing, developing, and deploying scalable and robust backend systems. Proven ability to lead development teams and mentor junior engineers. Seeking to leverage expertise in Python, cloud technologies, and microservices architecture to contribute to innovative projects.

EXPERIENCE

Senior Backend Engineer - TechSolutions Iberia

January 2019 - Present

Led the design and implementation of microservices architecture using Python (Django/Flask) and Docker, improving system scalability and reducing latency by 30%. Developed and maintained RESTful APIs, ensuring high availability and performance. Collaborated with frontend teams and DevOps to streamline CI/CD pipelines and deployment processes. Mentored junior engineers and conducted code reviews.

Backend Engineer - Innovatech Systems

June 2016 - December 2018

Developed and maintained backend services for a high-traffic e-commerce platform using Python and PostgreSQL. Implemented new features, optimized database queries, and resolved production issues. Worked closely with product managers to define technical requirements and deliver solutions on time.

Junior Software Developer - Global Software Services

September 2014 - May 2016

Assisted in the development of web applications using Python and JavaScript. Wrote unit tests and participated in agile development cycles. Gained experience in version control systems (Git) and basic database management.

SKILLS

Python - Django - Flask - SQLAlchemy - PostgreSQL - Docker - Kubernetes - AWS - RESTful APIs - Microservices - Git - CI/CD

EDUCATION

Master of Science in Computer Engineering - Universitat Politècnica de Catalunya (UPC) (2012 - 2014)

Bachelor of Science in Software Engineering - Universitat de Barcelona (2008 - 2012)

LANGUAGES

English (Native) - Spanish (Native) - Catalan (Fluent)
