SUMMARY

Mid-level Data Engineer with 5 years of experience in designing, building, and maintaining scalable data pipelines. Proficient in cloud platforms and big data technologies, seeking to leverage expertise to drive data-driven insights and solutions.

EXPERIENCE

Data Engineer - Innovatech Solutions

Jan 2021 - Present

Developed and optimized ETL/ELT pipelines using Python and Spark for large-scale data processing. Implemented data warehousing solutions on AWS Redshift, improving query performance by 30%. Collaborated with data scientists to ensure data quality and accessibility for analytics.

Junior Data Engineer - DataFlow Analytics

Jun 2019 - Dec 2020

Assisted in the design and implementation of data ingestion processes from various sources. Wrote SQL queries for data extraction and transformation. Monitored data pipeline performance and troubleshooted issues.

Data Analyst Intern - Global Insights Corp

Jan 2018 - May 2019

Supported the data analytics team by performing data cleaning and validation. Created reports and dashboards using BI tools. Gained foundational knowledge in data manipulation and analysis.

SKILLS

Python - SQL - Apache Spark - AWS (S3, Redshift, Glue) - ETL/ELT - Data Warehousing - Docker - Git - Airflow - Pandas - PostgreSQL

EDUCATION

M.Sc. in Computer Science - University of Technology (2017 - 2019)

B.Sc. in Software Engineering - Technical University of Berlin (2013 - 2017)

LANGUAGES

English (Native) - German (Fluent) - Spanish (Intermediate)
