

Marc Vidal

Frontend Engineer

marc.vidal.dev@email.com | +34 600 123 456 | Valencia, Spain

SUMMARY

Mid-level Frontend Engineer with 5 years of experience in building responsive and user-friendly web applications. Proficient in modern JavaScript frameworks and passionate about creating clean, efficient, and maintainable code. Seeking to leverage expertise in a challenging and collaborative environment.

EXPERIENCE

Frontend Developer - Innovatech Solutions

Jan 2021 - Present

Developed and maintained user interfaces for various web applications using React and TypeScript. Collaborated with backend developers and designers to implement new features and improve existing ones. Optimized application performance and ensured cross-browser compatibility.

Junior Frontend Developer - Digital Creations Agency

Jun 2019 - Dec 2020

Assisted in the development of client websites using HTML, CSS, and JavaScript. Implemented responsive designs and ensured adherence to brand guidelines. Participated in code reviews and learned best practices for frontend development.

Web Development Intern - Creative Web Studio

Jan 2019 - May 2019

Supported the development team in creating static and dynamic web pages. Gained practical experience with version control systems and basic frontend technologies.
