

Aidan O'Connell

Android Engineer

aidan.oconnell.dev@email.com | +353 87 123 4567 | Dublin, Ireland

SUMMARY

Mid-level Android Engineer with 5 years of experience developing and maintaining robust mobile applications. Proven ability to deliver high-quality code, collaborate effectively in agile teams, and contribute to all phases of the software development lifecycle. Seeking to leverage expertise in Kotlin and modern Android development practices to build innovative user experiences.

EXPERIENCE

Android Developer - Innovate Solutions Ltd.

January 2021 - Present

Developed and maintained core features for a flagship e-commerce Android application using Kotlin and Jetpack Compose. Collaborated with UI/UX designers and backend engineers to implement new functionalities and improve user experience. Implemented unit and integration tests to ensure code quality and stability. Participated in code reviews and mentored junior developers.

Junior Android Developer - TechForward Ireland

June 2019 - December 2020

Assisted in the development of an Android application for a leading financial services company. Wrote clean, maintainable Java code and learned Kotlin. Worked closely with senior developers to fix bugs and implement minor feature enhancements. Gained experience with version control systems (Git) and agile methodologies.

Mobile Development Intern - Digital Creations Co.

May 2018 - August 2018

Supported the Android development team by performing basic coding tasks, testing application builds, and documenting features. Gained foundational knowledge of Android Studio and the Android SDK.
