SUMMARY

Highly motivated and results-oriented Engineering Manager with 8+ years of experience leading cross-functional teams in the development of scalable software solutions. Proven ability to drive technical strategy, foster collaboration, and deliver high-quality products on time and within budget. Seeking to leverage leadership skills to contribute to innovative projects.

EXPERIENCE

Lead Software Engineer - TechSolutions Iberia

January 2019 - Present

Led a team of 10 engineers in the design, development, and deployment of a new microservices-based platform, improving system performance by 30%. Mentored junior engineers, conducted code reviews, and implemented agile methodologies to enhance team productivity. Collaborated with product managers to define technical roadmaps and ensure alignment with business objectives.

Senior Software Engineer - Innovatech Systems

June 2016 - December 2018

Developed and maintained critical backend services using Python and Django, handling over 1 million daily requests. Contributed to the architectural design of new features and participated in on-call rotations to ensure system reliability. Optimized database queries, reducing average response time by 20%.

Software Engineer - Global Software Corp

September 2014 - May 2016

Worked on the full software development lifecycle for web applications, focusing on front-end development with React and back-end services in Node.js. Implemented unit and integration tests to ensure code quality. Participated in daily stand-ups and sprint planning meetings.

SKILLS

Python - Django - Flask - Node.js - React - AWS - Docker - Kubernetes - SQL - PostgreSQL - Agile Methodologies - CI/CD

EDUCATION

Master of Science in Computer Engineering - Universitat Politècnica de Catalunya (2012 - 2014)

Bachelor of Science in Software Engineering - Universitat de Barcelona (2008 - 2012)
