

Marc Soler

Senior DevOps Engineer

marc.soler.devops@example.cat | +34 612 345 678 | Barcelona, Spain

SUMMARY

Highly experienced DevOps Engineer with over 8 years of expertise in architecting scalable cloud infrastructure and automating CI/CD pipelines. Proven track record in optimizing system reliability and reducing deployment latency for high-traffic enterprise applications.

EXPERIENCE

Senior DevOps Engineer - Nebula Systems Barcelona

2020 - Present

Lead the migration of legacy monolithic services to a microservices architecture on AWS using Kubernetes. Implemented GitOps workflows with ArgoCD, resulting in a 40% reduction in deployment time.

DevOps Engineer - Catalan Tech Solutions

2017 - 2020

Managed multi-region infrastructure using Terraform and Ansible. Developed custom Python scripts to automate monitoring alerts and log aggregation across distributed systems.

Systems Administrator - Mediterranean Data Corp

2015 - 2017

Maintained on-premise server clusters and optimized database performance. Assisted in the initial transition to containerized environments using Docker.

SKILLS

Python - Kubernetes - Terraform - AWS - Docker - Jenkins - Prometheus - Grafana - Ansible - Linux Administration - Go - Helm

EDUCATION

Master of Science in Computer Engineering - Universitat Politècnica de Catalunya (2013 - 2015)

Bachelor of Science in Informatics - Universitat de Barcelona (2009 - 2013)

LANGUAGES

Catalan (Native) - Spanish (Native) - English (Professional Working Proficiency)
