

Iñigo Zabaleta-Mendizabal

Principal Cloud Solutions Architect

izabaleta.arch@techmail.es | +34 600 123 456 | Madrid, Spain

SUMMARY

Strategic Cloud Architect with over 15 years of experience designing scalable, high-availability distributed systems. Proven track record in leading digital transformation initiatives and optimizing multi-cloud environments for global enterprises.

EXPERIENCE

Principal Cloud Architect - Iberia Systems Solutions

2018 - Present

Lead the architectural strategy for enterprise-wide cloud migration, overseeing a portfolio of 50+ microservices and reducing infrastructure costs by 30% through serverless adoption.

Senior Cloud Engineer - EuroCloud Dynamics

2013 - 2018

Designed and implemented robust CI/CD pipelines and automated infrastructure provisioning using Terraform, supporting a team of 40 developers.

Systems Administrator - Madrid Tech Infrastructure

2009 - 2013

Managed on-premise data centers and transitioned legacy monolithic applications to early cloud-based virtualized environments.

SKILLS

AWS - Azure - Kubernetes - Terraform - Python - Go - Docker - PostgreSQL - Prometheus - Grafana - Istio - Jenkins
