

Thalassa Voulgaris

Senior Security Engineer

t.voulgaris@berlin-sec-tech.de | +49-151-9823-4451 | Berlin, Germany

SUMMARY

Accomplished Senior Security Engineer with over 8 years of experience in cloud infrastructure protection and incident response. Proven track record in architecting zero-trust environments and leading cross-functional teams to mitigate complex cyber threats in high-scale enterprise systems.

EXPERIENCE

Senior Security Engineer - SpreeCloud Solutions

2020 - Present

Lead the security architecture for multi-cloud environments, implementing automated threat detection and response workflows. Reduced incident resolution time by 40% through the deployment of custom SIEM integrations.

Security Engineer - Nordic Fintech Systems

2017 - 2020

Managed vulnerability assessment programs and conducted regular penetration testing for core banking applications. Oversaw compliance audits for GDPR and ISO 27001 standards.

Junior Information Security Analyst - Berlin Data Guard

2015 - 2017

Monitored network traffic for anomalies and assisted in the configuration of firewalls and intrusion detection systems. Provided technical support for internal security policy enforcement.
