

Eilidh MacFhionnlaigh

Senior NLP Research Engineer

e.macfhionnlaigh@edinburgh-tech.example.com | +44 131 496 0123 | Edinburgh, UK

SUMMARY

Accomplished NLP Research Engineer with over 8 years of experience in developing large-scale language models and semantic search architectures. Proven track record of deploying production-grade transformer models to solve complex linguistic challenges in multilingual environments.

EXPERIENCE

Senior NLP Research Engineer - Caledonian AI Labs

2020 - Present

Lead the development of proprietary LLMs for specialized domain adaptation, resulting in a 30% improvement in inference efficiency. Mentored junior researchers and oversaw the transition of research prototypes into scalable cloud infrastructure.

NLP Engineer - Highland Data Solutions

2017 - 2020

Designed and implemented custom tokenization pipelines and attention-based architectures for sentiment analysis. Collaborated with cross-functional teams to integrate NLP features into core customer-facing products.

Junior Data Scientist - Forth Valley Analytics

2015 - 2017

Focused on statistical modeling and initial text classification tasks using traditional machine learning libraries. Assisted in the migration of legacy data processing scripts to modern Python-based workflows.

SKILLS

Python - PyTorch - TensorFlow - Hugging Face Transformers - JAX - CUDA - Docker - Kubernetes - SQL - C++ - Weights & Biases - Distributed Training

EDUCATION

PhD in Informatics (Natural Language Processing) - University of Edinburgh (2011 - 2015)

MSc in Artificial Intelligence - University of Glasgow (2010 - 2011)

LANGUAGES

English (Native) - Scottish Gaelic (Fluent) - French (Professional Working Proficiency)
